

Are you getting the best from your OSHC provider?

We know that school leaders want the best for their school community, however not all OSHC providers deliver the same service and returns to the schools they serve. Now is the perfect time to review your provider.

At Camp Australia everything we do is focused on children's growth in our care and we ensure the OSHC service we provide is yours – tailored to your community's needs.

We put **families first** with a **fair and reasonable fee structure**

Your OSHC is a dedicated approach to providing a service that is **tailored to your school**, ensuring that the evolving requirements of the children, school and community are met.

We guide children's growth with **enriching experiences** that appeal to their individual interests and provide programs for children to develop and learn.

When you partner with us, we become an **extension of your school community**. We adapt seamlessly into your school environment and partner with you to achieve your goals.

Our Educators **engage with children** and their experience is supported by a national corporate team to provide ongoing training, including compliance and quality knowledge.

We can conduct a free health check of your OSHC service. It doesn't cost anything to meet with us to discuss Your OSHC, obtain a proposal and discover how we can complement your school values and deliver an OSHC service that satisfies your student and parent community.
